Primary Logo

The primary logo is the main graphic symbol of Fasoo and is an essential element that symbolizes the brand. As a visual value representing Fasoo, it cannot be modified and used under any circumstances. When used in various digital and print media such as printed materials, signs, and promotions, it must be applied in accordance with these guidelines to maintain consistency.

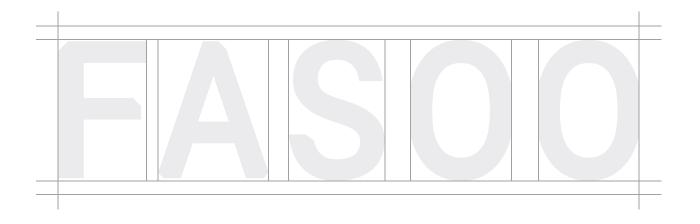

Primary Logo_Size

When referring to text "Fasoo", there is no need to use a trade mark or logo. However, if you include Fasoo's product logos, and corporate brand logo, you must apply our logo or logotype based on the guidelines without altering the logos in any way.

*When reducing or increasing the size of the logo, it should be used in a direct proportion.

Logo Construction

Minimum Logo Size

Primary Logo_Clear Space

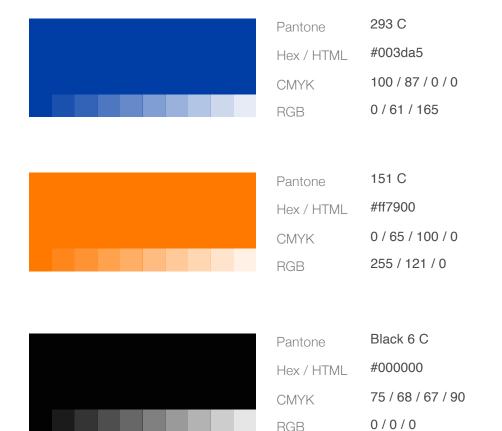

Fasoo's surroundings should be kept away from other elements, such as text, so that other elements do not appear to be part of the logo.

*Clear space (empty space) should be spaced up and down as much as the height of the logo.

Color System

The color system is the basic element that conveys the visual image of Fasoo, and the designated color must be used continually and continuously to construct a consistent image.

Icon

Fasoo's icons are used in a variety of media, both online and offline. The easy-to-understand metaphor was designed with simple lines, creating a unified look when used with other forms of icons.

*You may use icons with new shapes depending on the nature of the media, but avoid using too complex shapes.

Image Style

Image style is a key element of internal and external visual communication that expresses Fasoo. Images used construct a consistent visual language based on the illustrated image style. Avoid using images or excessive illustrations that are out of concept.

*Images that represent global, security, software, digitalization, communication, etc. are used.
